A Game Changer:

"Using the K1 Mid-Sole has been a game changer for our company! They're easy to use and they really work. Incidents of slips and falls are way down this year. Thanks Geroline!"

Senior Safety Manager, North American Logistics Company

Adjustable

Rotate

ORIGINAL

Versatile and durable, it's no wonder the K1 Mid-Sole is the original and number one rated ice cleat in North America.

***Original K1 Mid-Soles fit the majority of boot styles.**

Product code: K1MID

LOW PROFILE

Lower profile studs mean this model of the K1 Mid-Sole is ideal for footwear with little to no heel.

Product code: K1MID-LOW

INTRINSIC

Similar in every way to the Original K1 Mid-Sole with the added bonus of international certification against sparking in a variety of environments.

Product code: K1MID-INT

HIGH PROFILE

High profile studs means this model of the K1 Mid-Sole is ideal for footwear with higher arches.

Product code: K1MID-HIGH

INTRINSIC - LOW PROFILE

An Intrinsic Certified Sparkproof version of the Low Profile model.

(see certification chart)

Product code: K1MID-INT-LOW

Why different stud lengths?

Simple, because not all work footwear is the same...

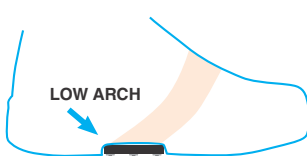

Original Mid-Sole.

Regular length studs: ideal for most work boots with a heel.

Low Profile Models.

Low profile studs: for boots or work shoes with low arches.

High Profile Mid-Sole.

High profile studs: for work boots with very high arches.

*Important Note: Our K1 Spacers can be added to any model to increase stud height.

Leading Edge Safety INCOMPARABLE TRACTION

Available for boots with extra high heels:

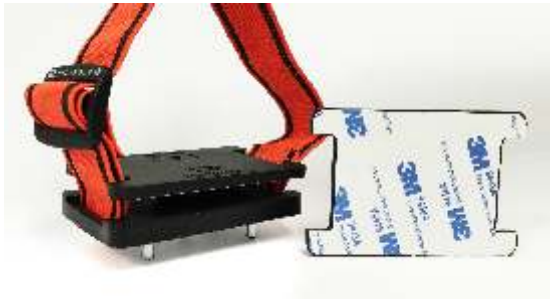

The K1 Spacer / Shim:

Adds 5mm (1/5 inch) of depth.

Simply attach peel-and-stick (3M) to back of Mid-Sole.

Product code: K1SPC

INTRINSIC CERTIFICATIONS - MIDSOLE & HEELSTOP MODELS

Burnable Material	Europe (IEC)	USA (NEC)
Gas or Vapour	Zone 0 Zone 1 Zone 2	Class I, Div 1
Dust	Zone 20 Zone 21 Zone 22	Class II, Div 1
Fibres	Same as Dust	Class III, Div 1

In order to reach the required values of combined resistance for potentially explosive production environments, the K1 Mid-Sole Intrinsic Certified Spark-proof model must always be worn together with appropriate ESD footwear.

K1 HEEL STOP TRACTION AID

Easy to attach and remove with handy Velcro Straps.

Made from TR Rubber: durable and remains flexible in sub-zero temperatures.

Covers the entire heel for effective slip prevention on ice and snow.

Reflective Hi-Vis strip for additional safety in dark conditions.

Highly durable, spark resistant studs - just like those found in ice tires. (Also available: Certified Spark Proof model.)
