Endura®

Cowgrain Split-leather Gloves

#399SC4

This style of Endura® glove is made from smooth cowgrain leather for dexterity and some oil and water resistance. This is a heavier leather compared to other types, providing increased durability and abrasion resistance.

All-leather construction with strapped thumbs and double-sewn forefinger. Complete with 4.5" split-leather cuffs and seams that are positioned toward the back of fingers for reduced rubbing and annoyance on top of longer seam life.
