Grain Fitter Gloves

#76B

Endura® fitters gloves stand up to heavy-duty rugged wear. They provide excellent protection from cuts, scrapes and abrasions because of the smooth top grain cowhide from which they are made. This also gives them excellent dexterity and durability, as well as oil and water resistance.

Gunn-cut styling features leather palms, fingertips, index finger and knuckle strap to protect against scrapes and abrasion. Cotton backs are elasticized for a snug fit and breathable comfort.

Also available in an unlined version (#76BUL).
