

SUPPLIED-AIR RESPIRATOR HOOD

NIOSH APPROVED HOOD

RESPIREX™

Petrochemical Pharmaceutical

Respirex Supplied-Air hood respirators offer protection from airborne contaminants that are not immediately dangerous to life or health (IDLH). This product has Type C Continuous Flow Class NIOSH Approval No: TC-19C-327. Failure to use complete NIOSH Approved Respirex components and replacement parts voids approval of the entire assembly.

- Available in a range of chemical resistant fabrics
- Front & rear cape panels provide protection to well below the wearer's chest area
- Air system is supported by an adjustable waist belt, fitted with a foam back pad for maximum wearer comfort
- Twin exhalation valves
- A durable rigid PVC visor giving a high degree of undistorted vision, with optional removable visor, or a lightweight, totally transparent PVC hood enabling 360° vision
- Optional particulate filter
- Optional three point hanging system which helps prevent distortion during storage
- Worn in conjunction with a chemical protective jacket and bib pants (or a chemical protective one-piece suit), gloves and safety boots, the complete outfit meets the performance requirements for ventilated and non-ventilated, non-gas-tight EN467:1995 (TYPE 2) protective clothing.

Options

- Rubber neck seal
- In-line 5 micron filter

Specifications

Required Airflow: Can be used between 12psi & 39psi
(dependent on air supply hose length)

Air Supply

This respirator must be supplied with clean, breathable air, Grade D or better, at all times. This respirator does not purify or filter out contaminants. See the product user's manual for additional details on operating and breathing air requirements.
